INDEX

Arachnida
Some spider records, mostly of upland species, 101–102; New pseudoscorpions for the north of England, 111–112

Book Reviews
14, 18, 28, 36–40, 46, 66, 75, 97–98, 114–116, 140, 150, 155–158

Botany (Flowering Plants and Ferns)
Stratiotes aloides in the East Riding, 99–101; Yorkshire and the origins of the Botanical Society of the British Isles, 119–121; The phytophagous insect fauna of *Mercurialis perennis*, 141–150

Bryology
Bryology in Yorkshire past and present, 41–45; George Stabler and the bryophytes of Dentdale, 71–72; YNU Bryological Section: annual report 1981, 72–74; William Ingham: the Yorkshire connection with the Moss Exchange Club, 129–131

Conchology
The Conchological Society of Great Britain and Ireland: the early years, 131–134

Crustacea
Occurrence of *Asellus* on offshore islands in the British Isles, 67–68; Occurrence of *Speocyclops demetiensis* in the Yorkshire Pennines, 151–155

Diptera
A species of *Triphleba* from Weardale, new to Britain, 13; Gall midge on *Hypoxylon*, 139–140

Ecology
Yorkshire naturalists in the history of ecology, 135–138

Entomology
The phytophagous insect fauna of *Mercurialis perennis*, 141–150

Fish
Fish fauna of the estuary of the River Blyth, Northumberland, 19–28

Hymenoptera
Mason wasps of Yorkshire, 5–13; New habitats and localities for two Arctic sawflies, 60

Lepidoptera
Mimas tiliae in North Humberside, 35; Delayed emergence of *Erannis defoliaria*, 68; Common long-eared bat: moth predator-prey relationship, 87–97

Mammalia
Fragmentation of small mammal skeletons from pellets of adult little owls, 15–17; First record of the Barbastelle in Yorkshire, 35; Common long-eared bat: moth predator-prey relationship, 87–97; Recovery of buried acorns by the grey squirrel, 112

Mites
Intertidal mites in association with *Semibalanus balanoides* and *Mytilis edulis* at Robin Hood's Bay, 29–31

Mollusca
Marstoniopsis scholtzi in Yorkshire, 4; Notes on Yorkshire Mollusca — 4: *Succinea oblongata* at Queen Mary's Dubb, Ripon, 18; Notes on Yorkshire Mollusca — 5: *Ferrisia wantieri* new to Yorkshire, 59–60

Museums
The Museums Association, 134

Mycology
Tuber aestivum — ecological observations on inter-relationship between truffles, squirrels and holly, 113–114; The British Mycological Society: the Yorkshire connection, 121–129; Gall midge on *Hypoxylon*, 139–140

Nature Reserves
Marks Hill, 4; Stonor Park and Bix Bottom, 102

Ornithology
Fragmentation of small mammal skeletons from pellets of adult little owls, 15–17; Aspects of the breeding biology of the pied flycatcher in a North Yorkshire woodland, 31–35; Density of breeding magpies in an urban environment, 47–58; Breeding population of oystercatchers in north-west England, 61–65; Duck decoys in south-east Yorkshire, 69–71; Status and distribution of the common sandpiper in the Peak District, 77–86

Orthoptera
Northern limits of three Orthoptera, 17

Yorkshire Naturalists' Union
YNU excursions in 1981, 103–111; Role of Yorkshire in the origin of some national societies, 117–138
